## PRIMARY SHIP GOAL

Redesign Idaho's healthcare delivery system to evolve from a fee-for-service, volume-based system to a value-based system of care that rewards improved health outcomes.

# SHIP SUPPORTING GOALS

**Goal 1:** Transform primary care practices across the state into patient centered medical homes (PCMHs).

**Goal 2:** Improve care coordination through the use of electronic health records (EHRs) and health data connections among PCMHs and across the medical neighborhood.

**Goal 3:** Establish regional collaboratives to support the integration of each PCMH with the broader medical neighborhood.

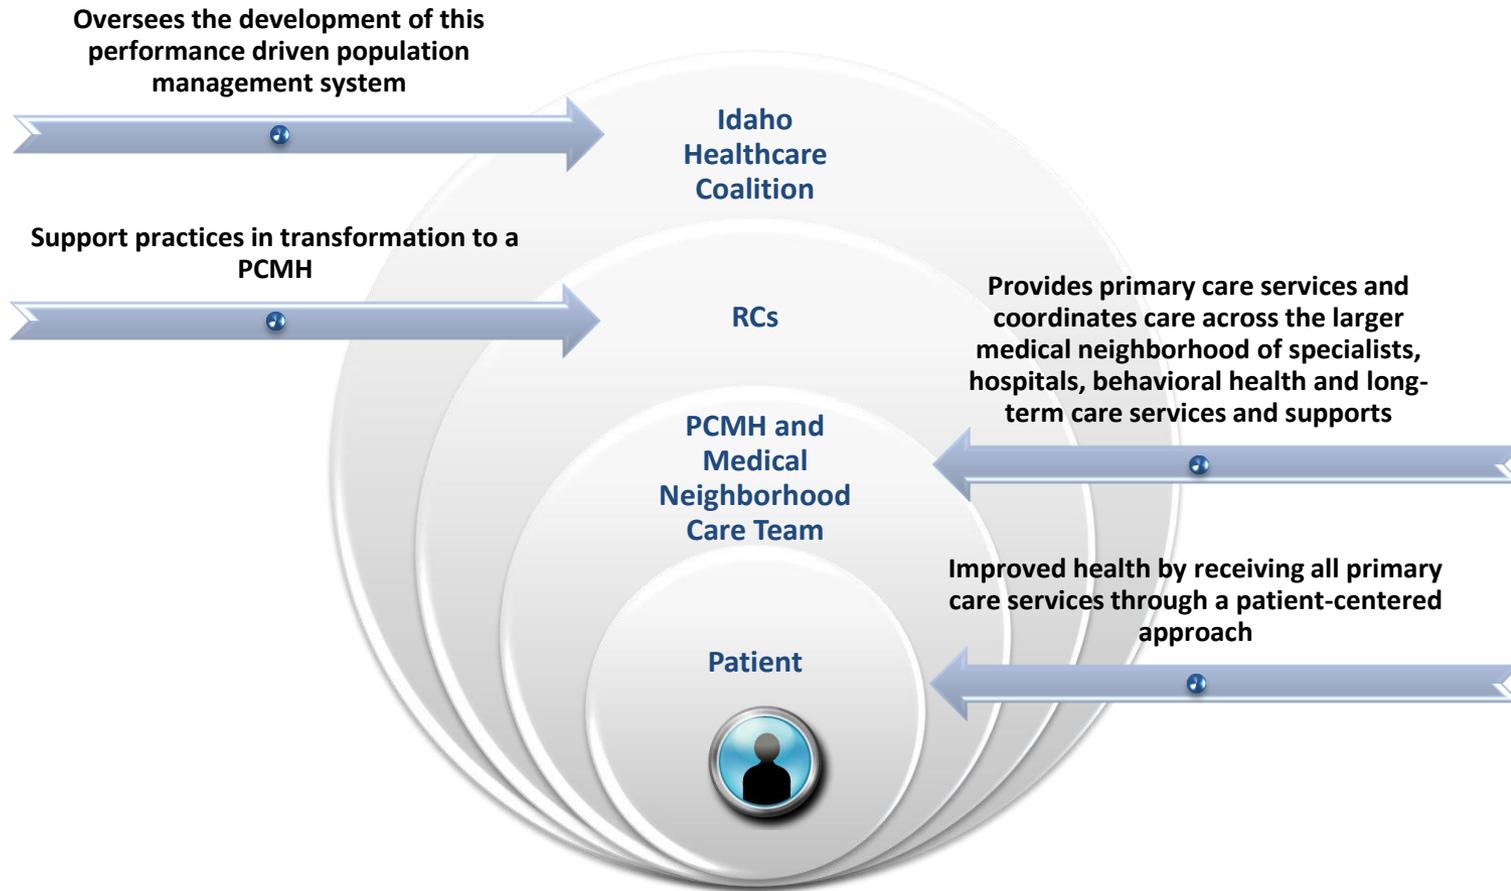

## SHIP SUPPORTING GOALS

**Goal 4:** Improve rural patient access to PCMH by developing virtual PCMHs.

**Goal 5:** Build a statewide data analytics system.

**Goal 6:** Align payment mechanisms across payers to transform payment methodology from volume to value.

**Goal 7:** Reduce healthcare costs.
