

## Why should I attend the ITA 2015: 2nd Annual Idaho Telehealth Summit?

The ITA 2015 is designed to meet the needs of those involved with or considering implementing telehealth— administrators, IT staff, policy makers and healthcare providers.

**Day One** of this two-day Summit will provide attendees with updates regarding national and local policy changes and information about the role of telehealth in the Idaho State Healthcare Innovation Plan (SHIP).

**Day Two** will provide attendees with a how-to guide for implementing telehealth (getting started, strategic planning, implementation, staff development, clinical application, security, sustainability and resources). Providing for this packed agenda are highly skilled and knowledgeable presenters coming from Idaho, Oregon, Montana, California, Washington D.C., New Mexico and Utah.

### About Us

The Idaho Telehealth Alliance is a member-supported statewide coalition facilitated by AHEC. Diverse stakeholders work to promote appropriate use of telehealth services for meeting healthcare needs of Idahoans.
